

ASHTON HURST
Ashton-under-Lyne constituency

ASHTON HURST has an electorate of 8671 and is mostly part of the Ashton-under-Lyne constituency. The Ward is made up of 6 polling districts with 5 polling stations. There is one small district of 2 properties as they vote with their old ward in the Stalybridge and Hyde constituency. There are currently 2049 electors registered for postal votes, resulting in 6622 electors who could vote in polling stations. If we proceed with 5 polling stations, this would create an average of 1734 (1324 in person) electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local & Mayoral	Turnout 2024 GE
HURST1	Hurst Nook Sunday School	1,240	213	236	413
HURST2	Holden Clough Community Primary School	2,178	478	479	913
HURST3	Hazelhurst Hub (Jigsaw)	2,237	326	381	794
HURST3 A*		2			N/A
HURST4	Hurst Knoll St James' Primary School	651	104	106	213
HURST5	Broad oak & Smallshaw Community Centre	2,382	261	310	644

Ashton Hurst mostly remains in Ashton-under-Lyne constituency under new constituency boundaries. As a result of the new constituency boundaries being based on pre 2023 ward boundaries, there are 2 properties that will vote with Stalybridge and Hyde and have their own small polling district as a result HURST3A.

Broad oak and Smallshaw Community Centre will be a double polling station for national and combined elections.

Feedback on the suitability of polling stations from Polling Station Inspectors and Presiding Officers did not suggest any problems with the current arrangements.

Since our last review, Hurst Knoll St James have requested that an alternative be sought, due to a change in use for the building that is used for polling. We welcome any feedback or suggestions for alternatives to see if this would be possible.

Consideration must be given to where HURST3A voters should vote for UK Parliamentary elections, as they are in the Stalybridge and Hyde constituency.

ASHTON ST MICHAEL'S
Ashton-under-Lyne constituency

ASHTON ST MICHAEL'S has an electorate of **9,193** and is part of the Ashton-under-Lyne constituency. The Ward is made up of 5 polling districts with 5 polling stations. There are currently **2,029** electors registered for postal votes resulting in **7,164** electors who could vote in polling stations. If we proceed with 5 polling stations, this would create an average of **1838** (**1432 in person**) electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Elector ate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
STMIC1	Hurst Community Centre	3,885	377	450	965
STMIC2	Our Lady of Mount Carmel Primary School	1,650	207	332	473
STMIC3	Albion Church Community room	1,043	132	195	360
STMIC4	The New Life Church (mobile)	1,261	184	219	464
STMIC5	Ashton Sixth Form College	1,360	208	271	485

Ashton St Michaels remains wholly in Ashton-under-Lyne constituency under new constituency boundaries.

Hurst Community Centre is the polling location for STMIC1 but sits just outside the ward, in Ashton Hurst. Hurst Community Centre will be a double polling station for national and combined elections.

Feedback on the suitability of polling stations from Polling Station Inspectors and Presiding Officers did not suggest any problems.

The New Life Church has been unable to offer space in the building for a polling station due to other commitments. We have used a unit on their carpark as a temporary measure. We welcome any feedback or suggestions for a permanent alternative within the polling district is welcomed due to the unsuitability of mobile units.

ASHTON WATERLOO
Ashton-under-Lyne constituency

ASHTON WATERLOO has an electorate of 9,274 and is part of the Ashton-under-Lyne constituency. The Ward is made up of 5 polling districts with 5 polling stations. There are currently 2,085 electors registered for postal votes resulting in 7,189 electors who could vote in polling stations. If we proceed with 5 polling stations, this would create an average of 1854 (1437 in person) electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electo rate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
WAT1	Canon Johnson C.of E.Primary School	2,378	329	392	794
WAT2	Mobile Opp Junction of Crowhill Road/Patterdale Rd	1,614	265	285	509
WAT3	Waterloo Primary School	1,585	203	238	525
WAT4	Waterloo Methodist Church	2,150	324	255	774
WAT5	Richmond Community Centre	1,556	312	248	464

Ashton Waterloo remains wholly in Ashton-under-Lyne constituency under new constituency boundaries.

In 2022, the ward had some changes, as we split WAT2 to even out the electorate and create an additional convenient polling place for half the district. This was when Richmond Community Centre was added. This has worked well and is now an established polling location.

Feedback on the suitability of polling stations from Polling Station Inspectors and Presiding Officers did not suggest any problems.

An alternative to the Mobile polling station on the Crowhill Rd/ Patterdale Rd junction is sought due to the high electorate and the unsuitability of mobile units.

Waterloo primary has formally requested we find an alternative polling place to avoid disruption to school on polling day. We welcome any feedback or suggestions for alternatives to see if this would be possible.

AUDENSHAW
Ashton-under-Lyne constituency

AUDENSHAW has an electorate of 9,837 and is mostly part of the Ashton-under-Lyne constituency. The Ward is made up of 8 polling districts with 6 polling stations. There are currently 2,115 electors registered for postal votes resulting in 7,722 electors who could vote in polling stations. If we proceed with 6 polling stations, this would create an average of 1639 (1287 in person) electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
AUD1	Poplar Street Primary School	522	72	85	166
AUD2	St Hilda's Church	1,606	166	213	625
AUD2A*		42			N/A
AUD3	Aldwyn Primary School	2,558	401	495	1054
AUD4	Ryecroft Hall	981	194	206	404
AUD5	St Anne's R.C. Primary School	1,920	331	338	862
AUD6	Audenshaw Primary School	2,200	359	387	772
AUD6A*		21			N/A

Audenshaw falls mainly within Ashton-under-Lyne constituency under new constituency boundaries. As a result of the new constituency boundaries being based on pre 2023 ward boundaries, there are 2 districts that will vote with Gorton and Denton and have their own small polling district as a result, AUD2A and AUD6A.

There is a fairly even geographical spread of polling stations and electors. The exception to this would be AUD1, with an electorate of 522 served by Poplar Street Primary School. We have not looked to change this as the school is on the border and is also used as a polling station for St Peters Ward.

Aldwyn Primary School and Audenshaw Primary School will be considered to be made double polling stations for national and combined elections.

Feedback on the suitability of polling stations from Polling Station Inspectors and Presiding Officers did not suggest any problems with the current arrangements. Proposals are to keep all above locations.

Consideration must be given to where AUD2A and AUD6A voters should vote for UK Parliamentary elections, as they are in the Gorton and Denton constituency.

DENTON NORTH EAST
Gorton and Denton constituency

DENTON NORTH EAST has an electorate of **8,738** and is mostly part of the Gorton and Denton constituency. The Ward is made up of 6 polling districts with 5 polling stations. There are currently **1,872** electors registered for postal votes resulting in **6,866** electors who could vote in polling stations. If we proceed with 5 polling stations, this would create an average of **1747 (1373 in person)** electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
DENNE1	Hope United Reformed Church	1,231	126	154	378
DENNE2	Carmel Christian Centre	1,073	199	194	357
DENNE2A*		649			N/A
DENNE3	Thorpe House	1,424	149	178	471
DENNE4	Linden Road Primary	2,057	235	290	642
DENNE5	St Anne's Primary	2,312	290	313	802

Denton North East falls mainly within the Gorton and Denton constituency. As a result of the new constituency boundaries being based on pre 2023 ward boundaries, there is 1 polling district that has been established that will vote with Ashton-under-Lyne, DENNE2A.

There is a fairly even geographical spread of polling stations and electors. The average electors per station is below average.

Feedback on the suitability of polling stations from Polling Station Inspectors and Presiding Officers did not suggest any problems with the current arrangements. Proposals are to keep all above locations.

Consideration must be given to where DENNE2A voters should vote for UK Parliamentary elections, as they are in the Ashton-under-Lyne constituency.

DENTON SOUTH
Gorton and Denton constituency

DENTON SOUTH has an electorate of **8,728** and is part of the Gorton and Denton constituency. The Ward is made up of 5 polling districts with 5 polling stations. There are currently **2,074** electors registered for postal votes resulting in **6,654** electors who could vote in polling stations. If we proceed with 5 polling stations, this would create an average of **1745 (1330 in person)** electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
DENS1	Houghton Green Methodist Church Hall	2,605	293	303	772
DENS2	Corrie Primary School	1,122	187	206	420
DENS3	St John Fisher R. C. Primary School	1,872	272	298	583
DENS4	Manor Green Primary School	1,917	253	266	556
DENS5	Yew Tree Community Centre	1,220	92	119	286

Denton South is now wholly a part of the Gorton and Denton constituency.

With the exception of DENS1, there is a fairly even geographical spread of polling stations and electors. The Polling Location for the DENS1 district, Houghton Green Methodist Church Hall is within a large room, and it is possible for it to be made a double station if necessary.

Feedback on the suitability of polling stations from Polling Station Inspectors and Presiding Officers did not suggest any problems with the current arrangements.

Manor Green has made a further request that an alternative be sought to the school if possible. We welcome suggestions for alternative locations within the district.

DENTON WEST
Gorton and Denton constituency

DENTON WEST has an electorate of **9,156** and is part of the Gorton and Denton constituency. The Ward is made up of 5 polling districts with 5 polling stations. There are currently **2,131** electors registered for postal votes resulting in **7,025** electors who could vote in polling stations. If we proceed with 5 polling stations, this would create an average of **1831 (1405 in person)** electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
DENW1	Denton West Community Centre	1,841	309	347	769
DENW2	St George's Centre	2,200	351	396	833
DENW3	Victoria Park Community Centre	1,600	153	201	481
DENW4	Greswell Primary School	1,498	270	284	609
DENW5	Holy Family R.C. Church Hall	2,027	367	469	905

Denton West is now wholly a part of the Gorton and Denton constituency.

There is an even geographical spread of polling stations and electors. St George's Centre and Holy Family Church Hall will be considered as double polling stations for national and combined elections.

Feedback on the suitability of polling stations from Polling Station Inspectors and Presiding Officers did not suggest any problems with the current arrangements.

No changes or considerations are proposed, but welcome feedback from stakeholders within Denton West.

DROYLSDEN EAST
Ashton-under-Lyne constituency

DROYLSDEN EAST has an electorate of **8,722** and is part of the Ashton-under-Lyne constituency. The Ward is made up of 6 polling districts with 6 polling stations. There are currently **1,977** electors registered for postal votes resulting in **6,745** electors who could vote in polling stations. If we proceed with 6 polling stations, this would create an average of **1453 (1124 in person)** electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
DROYE1	Medlock Leisure Centre	1,587	158	186	588
DROYE2	Redeemed Assemblies (formerly St John's)	2,099	228	312	957
DROYE3	Moorside Primary School	1,467	176	197	448
DROYE4	Fairfield Community Centre	1,627	168	229	500
DROYE5	Mobile at Kershaw Street	738	116	141	260
DROYE6	Church of the Epiphany	1,215	142	190	400

Droylsden East is now wholly a part of the Ashton-under-Lyne constituency.

Apart from DROYE5 there is still a fairly even geographical spread of polling stations and electors.

Feedback on the suitability of polling stations from Polling Station Inspectors and Presiding Officers did not suggest any major problems with the majority of the current arrangements. The mobile unit on Kershaw street is the only exception- as the delivery and collection of the mobile unit is problematic due to an increase in parked cars and holds a risk of not being possible/ having to change location days before poll.

An alternative to the Mobile unit at Kershaw Street in DROYE5 is sought due to its possible unreliable location, low electorate and an effort to cut the number of mobiles due to their unsuitability.

DROYLSDEN WEST
Ashton-under-Lyne constituency

DROYLSDEN WEST has an electorate of 8,670 and is part of the Ashton-under-Lyne constituency. The Ward is made up of 6 polling districts with 6 polling stations. There are currently 1,781 electors registered for postal votes resulting in 6,889 electors who could vote in polling stations. If we proceed with 6 polling stations, this would create an average of 1445 (1148 in person) electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
DROYW1	St Stephen's R.C. Primary School	1,895	185	270	694
DROYW2	Mobile opposite LARA Advice Centre	855	112	141	275
DROYW3	St Martin's Church Hall	1,655	239	286	606
DROYW4	New Learning Disabilities Day Centre	1,480	162	208	519
DROYW5	Mobile on Peakdale Road	1,022	162	167	356
DROYW6	Manchester Road Primary School	1,776	205	267	559

Droylsden West is now wholly a part of the Ashton-under-Lyne constituency.

There is a fairly even geographical spread of polling stations and electors, with the exception of DROYW2 and DROYW5.

Feedback on the suitability of polling stations from Polling Station Inspectors and Presiding Officers did not suggest any major problems with the current arrangements. There have been difficulties in the delivery and placement of the mobile unit on Peakdale Road due to poor access.

Alternatives are sought to the Mobile on Somerset Rd and the Mobile on Peakdale Road due to their lower electorates and an effort to cut the number of mobiles due to their unsuitability.

DUKINFIELD
Ashton-under-Lyne constituency

DUKINFIELD has an electorate of **9,119** and is mostly part of the Ashton-under-Lyne constituency. The Ward is made up of 6 polling districts with 5 polling stations. There are currently **1,951** electors registered for postal votes resulting in **7,168** electors who could vote in polling stations. If we proceed with 4 polling stations, this would create an average of **1823 (1433 in person)** electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
DUK1	Dukinfield Library	1,797	176	224	523
DUK2	<i>TBC</i>	2,902	318	439	883
DUK3	Mobile at Park Road (Tame Valley Pub carpark)	481	102	99	179
DUK3A		45			NA
DUK4	Dukinfield Town Hall	2,790	262	317	827
DUK5	Jigsaw Hub, Wellington Parade	1,112	87	108	252

Dukinfield falls mainly within Ashton-under-Lyne constituency under new constituency boundaries. As a result of the new constituency boundaries being based on pre 2023 ward boundaries, there is one small district that will vote with Stalybridge and Hyde and have their own small polling district as a result, DUK3A

The Ward was split successfully in the recent review and has a much more even spread across the ward, with the exception of DUK3.

Old Hall Chapel has not been available for some time and looks unlikely to be used as a community space in future. Whilst mobile units have been a temporary solution, we must consider which fixed, accessible site we use for polling in DUK2. We cannot continue to use mobiles (which are costly and not accessible / large enough for all) whilst there are other sites available. We used I-train for the Parliamentary, and from staff accounts, this worked well and met key accessibility criteria.

Feedback on the overall suitability of the rest of the polling stations from Polling Station Inspectors and Presiding Officers did not suggest any problems with the arrangements in July.

An alternative to the Mobile unit at Park Road is sought due to its low electorate and an effort to cut the number of mobiles due to their unsuitability.

Suggestion that I-Train to be made the permanent polling station for DUK2. Where there are any objections to this proposal, alternative suggestions for another permanent suitable location would be welcomed.

Consideration as to where DUK3A electors should vote for UK Parliamentary elections, as they are in the Stalybridge and Hyde constituency.

DUKINFIELD/STALYBRIDGE
Stalybridge and Hyde Constituency

DUKINFIELD/STALYBRIDGE has an electorate of **8,761** and is mostly part of the Stalybridge and Hyde Constituency. The Ward is made up of 6 polling districts with 4 polling locations. There are currently **2,217** electors registered for postal votes resulting in **6,544** electors who could vote in polling stations. If we proceed with 4 polling stations, this would create an average of **2190 (1636 in person)** electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
DU/ST1	St John's Church Centre	2,287	357	372	771
DU/ST1A		12			NA
DU/ST2	Stalybridge Unitarian Church, Forester Drive, Stalybridge	1,949	332	344	678
DU/ST3	Astley Sports Village, Rayner Stephens High School	3,265	349	348	861
DU/ST3A		121			NA
DU/ST4	Mobile at The Arcade, High Street	1,140	187	196	399

Dukinfield/Stalybridge falls mainly within Stalybridge and Hyde constituency under new constituency boundaries. As a result of the new constituency boundaries being based on pre 2023 ward boundaries, there are two small districts that will vote with Ashton-under-Lyne and have their own small polling districts as a result, DU/ST1A and DU/ST3A.

With the exception of DU/ST3 Rayner Stephens, there is a fairly even geographical spread of polling stations and electors. Rayner Stephens moved the Polling location to the Astley Sports Village on site due to a change in layout of the school.

Feedback on the suitability of polling stations from Polling Station Inspectors and Presiding Officers did not suggest any problems with the current arrangements.

St John's Centre will be considered as a double polling station for national and combined elections.

Rayner Stephens has made a request that an alternative be sought to the school if possible and suggested approaching nearby primary school or church. Alternative suggestions for another permanent suitable location would be welcomed.

Alternative sought for mobile at the Arcade due to its low electorate and an effort to cut the number of mobiles due to their unsuitability.

Consideration as to where DUK/ST1A and DUK/ST3A electors should vote for UK Parliamentary elections, as they are in the Ashton-under-Lyne constituency.

HYDE GODLEY
Stalybridge and Hyde Constituency

HYDE GODLEY has an electorate of 8,606 and is part of the Stalybridge and Hyde Constituency. The Ward is made up of 5 polling districts with 5 polling stations. There are currently 2,105 electors registered for postal votes resulting in 6,501 electors who could vote in polling stations. If we proceed with 5 polling stations, this would create an average of 1721 (1300 in person) electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
GOD1	Godley Community Primary School	2,374	381	455	804
GOD2	St Paul's Catholic Primary School, Nursery Unit, Turner Lane	2,005	276	301	661
GOD3	Zion Congregational Church	1,472	296	244	502
GOD4	Endeavour Academy	1,969	351	385	631
GOD5	The United Church	795	127	164	245

Hyde Godley remains wholly within the Stalybridge and Hyde constituency.

There is a fairly even geographical spread of polling stations and electors. Though Godley Community Primary School and Endeavour Academy will be considered for double polling stations for national and combined elections.

St Paul's Catholic Primary School has made a request that an alternative be sought to the school if possible. We welcome suggestions for alternative locations within the district.

HYDE NEWTON
Stalybridge and Hyde Constituency

HYDE NEWTON has an electorate of 9,154 and is part of the Stalybridge and Hyde Constituency. The Ward is made up of 4 polling districts with 4 polling stations. There are currently 1,940 electors registered for postal votes resulting in 7,214 electors who could vote in polling stations. If we proceed with 4 polling stations, this would create an average of 2288 (1803 in person) electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
NEW1	Youth Centre, Lower Bennett Street	2,502	218	266	633
NEW2	Hyde Flowery Centre, Old Road	1,788	185	224	548
NEW3	Oakfield Primary School (Nursery Building), St. Marys Road	2,502	156	189	561
NEW4	St Mary's Church Parish Hall, Talbot Road	2,914	417	480	1025

Hyde Newton remains wholly within the Stalybridge and Hyde constituency.

There is a fairly even geographical spread of polling stations and electors. The average number of polling station voters per station is high.

St Marys Church Hall will be considered for double polling stations for national and combined elections.

Feedback on the suitability of polling stations from Polling Station Inspectors and Presiding Officers did not suggest any problems with the current arrangements.

No changes or considerations are proposed, but we welcome feedback from stakeholders within Hyde Newton.

HYDE WERNETH
Stalybridge and Hyde Constituency

HYDE WERNETH has an electorate of 9,445 and is part of the Stalybridge and Hyde Constituency. The Ward is made up of 5 polling districts with 5 polling stations. There are currently 2,453 electors registered for postal votes resulting in 6,992 electors who could vote in polling stations. If we proceed with 5 polling stations, this would create an average of 1889 (1398 in person) electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
WER1	Dowson Primary School, Malborough Road	1,834	357	366	713
WER2	Werneth House, Wych Fold	2,090	464	484	865
WER3	Mobile off Waverley Road, near the former Cheetham Fold Post Office	1,014	182	201	382
WER4	Hyde Town Hall, Corporation Street	2,248	442	409	674
WER5	St George's Church, Church Street, Hyde	2,287	374	409	751

Hyde Werneth remains wholly within the Stalybridge and Hyde constituency.

There is a fairly even geographical spread of polling stations and electors.

Feedback from Polling Station Inspectors and Presiding Officers did not suggest any problems, except for the mobile unit.

The Mobile off Waverley Road has caused a few issues. It is difficult to place and have received complaints regarding generator noise, access and placement.

Hyde Town Hall and St George's Church would be considered for double polling stations in combined and Parliamentary Elections.

Alternative sought for mobile off Waverley Road, close to the former post office due to its lower electorate / turnout, difficulty to place consistently and in an effort to cut the number of mobiles due to their unsuitability.

LONGDENDALE
Stalybridge and Hyde Constituency

LONGDENDALE has an electorate of **9,737** and is part of the Stalybridge and Hyde Constituency. The Ward is made up of 7 polling districts with 7 polling stations. There are currently **2,382** electors registered for postal votes resulting in **7,355** electors who could vote in polling stations. If we proceed with 7 polling stations, this would create an average of **1391 (1050 in person)** electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
LDAL1	Broadbottom Community Centre	1,110	283	299	506
LDAL2	Ken Ward Sports Centre	1,237	72	104	288
LDAL3	Longdendale Childrens Centre	2,217	251	302	753
LDAL4	Mottram Community Centre	622	104	101	222
LDAL5	Arundale Primary School	1,301	104	145	319
LDAL6	Meeting Point at St Barnabas	921	61	81	192
LDAL7	St James' Catholic Primary School	2,342	145	181	587

Longdendale remains wholly within the Stalybridge and Hyde constituency.

There is a fairly even geographical spread of polling stations and electors, some are lower than average, but this reflects the geography of the ward.

Feedback from Polling Station Inspectors and Presiding Officers does not suggest problems with any of the polling stations.

No changes or considerations are proposed, but we welcome feedback from stakeholders within Longdendale.

MOSSLEY
Stalybridge and Hyde Constituency

MOSSLEY has an electorate of **8,767** and is part of the Stalybridge and Hyde Constituency. The Ward is made up of 5 polling districts with 5 polling stations. There are currently **1,903** electors registered for postal votes resulting in **6,864** electors who could vote in polling stations. If we proceed with 5 polling stations, this would create an average of **1753 (1372 in person)** electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
MOSS1 MOSS2	Mossley Youth Base	3563	460	486	1278
MOSS3	The George Lawton Hall	3100	612	681	1326
MOSS4	Mossley Community Centre	928	178	221	429
MOSS5	Mobile at Roaches Lock Inn	1211	236	259	533

Mossley remains wholly within the Stalybridge and Hyde constituency. There is a fairly even geographical spread of polling stations and electors.

Feedback on the suitability of polling stations from Polling Station Inspectors and Presiding Officers did not suggest any problems with the current arrangements, with the exception of the mobile unit.

The mobile polling station used in MOSS5 is situated on private land where we have to pay further charges.

Mossley Youth Base and George Lawton Hall will be double polling stations for national and combined elections.

Alternative sought to the Mobile at Roaches lock in an effort to cut the number of mobiles due to their unsuitability.

ST PETERS
Ashton-under-Lyne

ST PETERS has an electorate of **9,387** and is part of the Ashton-under-Lyne Constituency. The Ward is made up of 7 polling districts with 7 polling stations. There are currently **1,777** electors registered for postal votes resulting in **7,610** electors who could vote in polling stations. If we proceed with 7 polling stations, this would create an average of **1341 (1087 in person)** electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
STP1	Holy Trinity Community Centre	2,227	406	608	687
STP2	Charlestown Sunday School	1,015	160	191	327
STP3	West End Primary School	884	198	281	303
STP4	West End Methodist Church Hall	2,072	263	412	615
STP5	St Stephen's C.of E. Church Foyer	894	111	169	274
STP6	Ryecroft House	1,095	107	146	243
STP7	Poplar Street Primary School	1,205	104	154	388

St Peters is wholly within the Ashton-under-Lyne constituency. There is a fairly even geographical spread of polling stations and electors.

Feedback from Polling Station Inspectors and Presiding Officers following elections did not suggest any problems.

A mobile has been used on West End primary whilst building work has been taking place. We will be back in the school for next scheduled polls.

Holy Trinity Community Centre and West End Methodist Church Hall would be considered for double polling stations for national and combined elections.

No changes or considerations are proposed, but we welcome feedback from stakeholders within St Peters.

STALYBRIDGE NORTH
Stalybridge and Hyde Constituency

STALYBRIDGE NORTH has an electorate of 9,342 and is part of the Stalybridge and Hyde Constituency. The Ward is made up of 5 polling districts with 5 polling stations. There are currently 2,019 electors registered for postal votes resulting in 7,323 electors who could vote in polling stations. If we proceed with 5 polling stations, this would create an average of 1868 (1464 in person) electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
STNTH1	2 nd Stalybridge Scout hut off Stamford Drive	826	113	137	227
STNTH2	St George's Church (Community Room)	2,590	399	471	866
STNTH3	Ridge Hill Children's Centre	2,551	262	321	722
STNTH4	Buckton Vale Bowls Pavillion	1,866	350	388	820
STNTH5	Reach Church	1,526	160	187	412

Stalybridge North remains wholly within the Stalybridge and Hyde constituency. There is a fairly even geographical spread of polling stations and electors

For the 2024 elections we had to move from the fire station as the community room was no longer available. Following consultation with members, the 2nd Stalybridge Scout hut off Stamford Drive was proposed. This worked well in polls this year and meets necessary criteria for a polling station.

Feedback from Polling Station Inspectors and Presiding Officers following elections did not suggest any problems with any of the existing polling locations.

St George's Church and Ridge Hill Children's Centre will be considered double polling stations for national and combined elections.

Other than confirming the permanent change in station to the 2nd Stalybridge Scout hut for STNTH1, no changes or considerations are proposed. However, we do still welcome feedback from stakeholders within Stalybridge North.

STALYBRIDGE SOUTH
Stalybridge and Hyde Constituency

STALYBRIDGE SOUTH has an electorate of **9,077** and is part of the Stalybridge and Hyde Constituency. The Ward is made up of 5 polling districts with 5 polling stations. There are currently **2,110** electors registered for postal votes resulting in **6,967** electors who could vote in polling stations. If we proceed with 5 polling stations, this would create an average of **1815 (1393 in person)** electors per station. If the stations remain unchanged, the table below illustrates the potential turnout at each polling station within the ward:

Polling District	Polling Station	Electorate	Turnout 2023 Local	Turnout 2024 Local and Mayoral	Turnout 2024 GE
STSTH1	Staly Cricket Club	915	114	110	291
STSTH2	The Copley Centre	1,928	236	255	650
STSTH3	St Paul's C.of E. Primary School	2,060	227	245	614
STSTH4	Priory Tennis Club	1,069	244	274	513
STSTH5	Stalyhill Infants School	3,126	591	679	1243

Stalybridge South remains wholly within the Stalybridge and Hyde constituency.

With the exception of STSTH5, there is a fairly even geographical spread of polling stations and electors.

Stalyhill Infants School will be considered as a double polling station in all polls. As the district has a high number of postal voters (858), the number of in person electors per station would be within the usual range.

Feedback from Polling Station Inspectors and Presiding Officers did not suggest any problems.

No changes or considerations are proposed, but we welcome feedback from stakeholders within Stalybridge South.
