

Dukinfield Town Hall Refurbishment Project

dukinfield town hall, king street, dukinfield, SK16 4LA

Before & After Presentation

Dukinfield Town Hall Refurbishment Project

Introduction

>>>

The Refurbishment of Dukinfield Town Hall

The total refurbishment of this majestic building has created a prestige venue in the heart of Tameside giving state of the art facilities for local businesses, the community the Education Development Centre and the Registrar of Births, Marriages and Deaths along with a range of other users, including the Tameside Patrollers and Police Post.

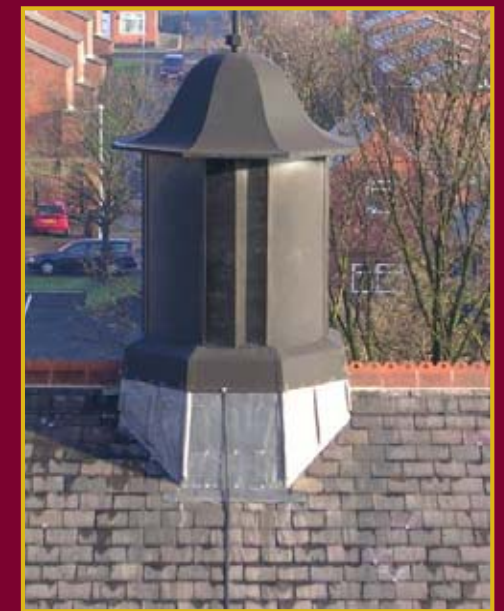

The £3m scheme was funded wholly from Tameside Council capital programme and was completed in January 2005, three months ahead of schedule. All previous users will be welcome to return and enjoy the new and improved facilities.

This presentation is intended as a guide to show how Dukinfield Town Hall has been refurbished and remodeled. The images displayed show the building as it was before and how it looks now. The Town Hall has been refurbished to an extremely high standard whilst also maintaining as many of the original features and characteristics as possible.
